Form 4 – 5 Booklist 2025/26

A note on **Flash Drives**: Flash drives are small, portable devices that can hold several computer files. Students would use them when storing material for SBAs (School Based Assessment) or practical work. **One flash drive is sufficient for all subjects.** However, as all students are now on the school's virtual learning platform, they **EACH have access to 30 GB of online storage.** The student can access the information on any device, once they can access their **Barataria North Secondary email address.**
